

*Announcing a new book about a legendary doctor of
Chinese Medicine in Vietnam*

FOURTH UNCLE *in the* MOUNTAIN

FOURTH UNCLE IN THE MOUNTAIN
A Memoir of a Barefoot Doctor in Vietnam
by Quang Van Nguyen and Marjorie Pivar

Marjorie encouraged Quang to share his remarkable story after he advised the pediatric medical team at Mount Sinai Hospital in New York to make the correct diagnosis for her son.

"No one in this country could hope to have Dr. Van Nguyen's depth of experience in so many realms. Now that his story is public property I am even more encouraged to ask that he consider teaching what everyone who reads the book now knows should not be lost. Naturally, he cannot re-create the world that made him for anyone else, but even a small part would be a great contribution."
(Leon Hammer, MD, renowned doctor of Chinese medicine)

"This is a magical, mesmerizing story; a complicated tale of Vietnam's anguished history, of healing and faith, and of a young boy's miraculous coming of age."
(Ken Burns, Director of *Jazz* and *The Civil War*)
